## Junior iOS developer / OT 1217

Do you want to be part of something big and help take the company to the next level? We are looking for a highly motivated iOS developer with experience building apps in ObjectiveC and ideally at least two apps in an official app store to support our team and shape our product.

Sounds like you're the one? Send your CV to us today!

### What we are looking for:

- Experience shipping two or more Objective-C iOS apps, ideally currently available in an app store
- Personal projects that show an aptitude for engineering and product sense
- Ability to work in areas outside of their usual comfort zone and get things done quickly
- Exposure to architectural patterns of a large, high-scale web application
- Demonstrated design and UX sensibilities
- Solid knowledge of Git

### What you will be doing:

- Designing and building applications for our iOS platform
- Ensuring the performance, quality, and responsiveness of apps
- Collaborating with a team to define and design new features
- Identifying and correcting bottlenecks and fixing bugs
- Helping to maintain code quality, organization and automatization

### What we can offer:

- An international team that passionately believes in what it does, always ready to go the extra mile for each other
- Responsibility and space to make your own decisions
- A highly innovative and interesting product
- An attractive salary package
- An opportunity to be part of a growing company, directly influencing its success
- A stunning office in the tech-hub of Europe & the trendiest part of Berlin
- Free drinks, fruits and snacks
- Awesome team building activities such as monthly breakfasts and stylish dinners
- An open-door policy environment and full transparency

If your talent matches the requirements kindly send your CV to us!
